THROUGH MY LENS

WRITTEN ON HIS 90TH BIRTHDAY 2018

Today is a Special birthday to celebrate his glorious years…

A moment to cherish Papa`s Life journey of achievements' and fulfillment,

Never compromised to get best of education.

Very intelligent, always focused in studies at best universities.

OM Dada ... most respected amongst his brothers, and very close to his elder sisters

The bond between them is `remarkable`, A true example of love and affection!

As the Brilliant student, Husband and Father, His journey is like a Roller coaster.

On the path of his career he has faced many ups and down,

But fought back with his truth and hardwork, always has worked on his terms,

In spite of all the life odd humps and hurdles,we never saw him `grumbling`.

His intellectual knowledge and great command of language makes him `unique`.

Always has enjoyed his profession and par excellence at workplace.

It is not difficult to visualize his personality as he is a `Man full of life`,

He knows how to enjoy and always loves to spend time with friends at café with a coffee .

He has never measured life happiness in terms and parameters of profit and loss.

Easy going and Simple living with high thinking is `his life Moto...`

Beautiful combination of `Simplicity with Style` is his personality charm.

Always is well dressed,precise, perfect in work, and with great sense of humor.

His witty comments always surprise us, sometimes makes others uncomfortable too!

As a couple both are perfect in a different way as Their interest and hobbies do not tally,

But the strong bonding, and level of understanding is beyond compare.

`She` has always stood by him all the time ... and never disappointed ` Saxena Ji`

`Anuj` absence had created great loss and vacuum for them as parents,

Yet they overcome their personal grief and took care for us,

They are most loving parents throughout in our needs, we are blessed with their support.

`Grand Children` see him as the `Coolest` Person, and `Great grand Pa` is simply amazing.

Wishing him the best of health and lot more years of happiness !!!

Gitanjali Saxena,11th July 2018
