Arun and Sunita Bhabhi convey feelings as..

It is going to be second birthday of papa since he left us on April 27, 2021.

We are going to miss him on his **94th birthday.** We could never imagine coming to press enclave in his absence. Now it is the reality .His presence was a pillar of strength to all of us. Sitting along him with drinks and chatting was always a pleasure.

I still remember the day on February 8th 2021 which was my birthday ,Ishita insisted us to go and meet Baba .That turned out to be my last meeting with Papa. Days and years will go by, but he will remain in our hearts ,and above all his teachings will keep us inspiring.

We all remember papa on his birthday. He had a charismatic personality. His confidence level was beyond compare. He was a visionary person ,and he has left so many memories. On the festivals and any event, he always called us to join the celebrations at A-7 with them. He was a fun-loving person. we would be missing him on the occasions. We are all blessed to have father like him. His love and blessings will be always there for all of us.
